

# REGULATED & PRESCRIBED INDUSTRIAL WASTE

## REGULATED AND PRESCRIBED INDUSTRIAL WASTE

### Minimal environmental impact

Prevent harm to human health and the environment with our EPA approved method of regulated and prescribed industrial waste disposal.

### Compliance made easy

Our team of experts provide the right advice to ensure that your waste is disposed of according to government legislative requirements.

### Avoid hazardous waste incidents

Ace Waste's waste strategies are tailored to your needs, safe, stress-free and in accordance with Australian Government regulations.

Ace Waste manages the treatment of a broad range of chemical and hazardous wastes. A portfolio of technologies including high temperature incineration and appropriate disposal through other environmental authority licensed contractors provides an environmentally sound destruction method for sensitive and hazardous materials.

Ace Waste continues to extend our capabilities and licenses to ensure that we can provide you with a comprehensive total waste management solution for hazardous, regulated and prescribed industrial waste. Examples of materials we manage include:

- Hydrocarbon contaminated soils and sludges.
- Flammable wastes including paints, lacquers, varnish, resins, pigments and solvents (halogenated and non-halogenated).
- Oils and emulsions.
- Coolants and glycols.
- Surfactants and cleaning products.
- Acids and alkalis.
- Laboratory wastes.
- Heavy metal bearing waste and spent catalysts.
- Photographic chemicals and processing materials.
- Resins, latex, plasticisers, glues and adhesives.
- Inks, dyes, pigments, paints, lacquers and varnish.
- Packaging or plastic waste.

Our experienced waste management representatives can provide waste inventories, undertake identification, labelling, repackaging of waste materials and organise transport using one of our numerous controlled licensed waste vehicles.

- Ace Waste currently provides an essential service to local authorities, health industry, government agencies and various commercial & industrial industries in the safe and environmentally sound management of hazardous waste.
- Our site audits ensure you meet the regulatory & contractual obligations for your waste streams. We give honest appraisal of materials, offering you the most cost efficient methods of treatment or disposal.
- Not sure how to dispose of your different waste in a safe and compliant manner? Our extensive experience with all types of waste streams means that we have the expertise and knowledge to guide you to the correct disposal of your waste. We can segregate your waste and dispose of it in the most environmentally and cost efficient manner.
- Incorrect disposal of your waste can lead to problems. Contact to us today and discuss your options.
