

BIOSECURITY WASTE

Ace Waste is accredited by the Department of Agriculture and Water Resources (DAWR) for the safe and compliant disposal of biosecurity waste.

BIOSECURITY WASTE

No remnants of pests or hazardous foreign materials

The timely collection and disposal of biosecurity waste ensure that no remnants of exotic pests or hazardous foreign materials reach Australian soil.

Transparent and trackable

Experience complete peace of mind knowing that your waste will be disposed of responsibly. Our patented Ace Waste Live™ Tracking System means that your waste is fully traceable, with real-time tracking, and a guarantee of total destruction.

Reduce the burden of compliance and save money with our cradle-to-grave solutions including the collection, transport and disposal of quarantine and biosecurity waste.

Our environmentally sustainable disposal solutions are suitable for all biosecurity waste including:

- Timber.
- Pallets.
- Plastics.
- Frozen foods and meat.
- Grains and seeds.
- International freight materials
- Shipping waste
- Animal products
- Amnesty waste
- Airport waste materials

Ace Waste works closely with Department of Agriculture and Water Resources to ensure the timely, smooth and compliant removal of your biosecurity waste.

- Ace Waste staff are fully trained in DAWR requirements for the disposal of biosecurity waste from vessels and facilities.
- We work extensively with the shipping industry to offload biosecurity waste directly from vessels into 240 litre containers. Waste is transported in licensed vehicles to a high temperature incineration plant.
