

# PHARMACEUTICAL WASTE

Ace Waste provides reliable and secure solutions for the collection, transportation and disposal of pharmaceutical and related waste products.

## PHARMACEUTICAL WASTE

### No residue or trace

Thermal incineration leaves no trace, residue or pharmaceutical waste for landfill. Our low emission technology surpasses EPA environmental standards and produces 24 times less greenhouse gas emissions than treatment landfill operations.

### Waste to energy

Ace Waste leads the way in environmentally sustainable waste management with a combustion process that transforms waste into renewable energy.

### Transparent and trackable

Experience complete peace of mind knowing that your waste will be disposed of responsibly. Our patented Ace Waste Live™ Tracking System ensures that your waste is fully traceable, with real-time tracking, with a guarantee of total destruction..

Current legislation requires that pharmaceutical waste must be incinerated. Ace Waste leads the market with incineration plants in Queensland and Victoria that deliver the safest and most efficient destruction of hazardous waste.

A major audit found that 14% of clinical waste, in Australia, was mixed with pharmaceutical waste and if not incinerated, is in breach of legislative requirements.

Ace Waste uses world class methodologies to safely destroy all waste streams generated by pharmaceutical operations including:

- Expired drugs, remedies or medicine.
- Pharmaceutical manufacturing.
- Laboratory waste.
- Hazardous waste.
- Waste from pharmacies, doctor's surgeries and hospitals.

Our incineration process – with no need for segregation of waste – saves you money and provides a streamlined service.

- Pharmaceutical waste poses a serious risk to both people and the environment and cannot be disposed of as general waste. Ace Waste offers an end-to-end solution for the responsible and compliant collection, transportation and disposal of pharmaceutical waste.
- Chemical and pharmaceutical substances must be disposed in compliance with specific legislative requirements. Ace Waste is authorised to destroy regulated goods and ensure that you meet government compliance standards.
- Our custom made storage facilities are designed for the secure storage of pharmaceutical materials. Our staff are fully vetted and our secure sites are monitored 24/7.
