

TOTAL WASTE MANAGEMENT SOLUTION

Ace Waste clean technologies create 90% less landfill waste than solutions based on treatment and landfill operations, with the complete destruction of hazardous and highly infectious waste.

TOTAL WASTE MANAGEMENT SOLUTION

The safe and responsible alternative

With over 30 years experience, Ace Waste offers you the right advice to ensure that your waste disposal is according to government compliance standards.

Waste to energy

Leading the way in environmentally sustainable waste management, our unique combustion process transforms waste into renewable energy. Servicing SEQ since 1987 and Victoria since 2006, Ace Waste ensure that your waste disposal is in accordance with both Australian and state government(s) regulatory standards and compliances.

Blended waste streams

Our extensive knowledge in different waste streams enables Ace Waste to blend waste to maximise optimal combustion and energy efficiency of incineration, guaranteeing the total destruction of your waste.

Transparent and trackable

Experience complete peace of mind knowing that your waste will be disposed of responsibly. Our patented Ace Waste Live™ Tracking System means that your waste is fully traceable, with real-time tracking, and a guarantee of total destruction. This system gives you the added bonus of knowing where and how your waste has been disposed of.

Extensive industry experience means that Ace Waste has a greater understanding than most of the multifaceted requirements of businesses, health providers and industrial entities. As a result, we offer you and your business Total Waste Management solutions for the complete and personalised single service management of your waste disposal requirements.

As part of Ace Waste Total Waste Management, we are licensed to dispose of the following waste streams:

- Clinical Waste
- Cytotoxic Waste
- Pharmaceutical Waste
- Biosecurity Waste
- Sharps Waste
- General Waste
- Sanitary Waste
- Recyclable Waste
- Cardboard Waste
- Confidential Paper Waste
- Hazardous Waste including Chemical and Dangerous Goods

Clean technologies deliver world class waste solutions:

SOLVING
TOMORROW'S
WASTE PROBLEMS
TODAY

PROVIDING ENVIRONMENTAL SOLUTIONS SINCE 1989

- With the two largest environmentally friendly high temperature incineration facilities in Australia, Ace Waste is capable of processing between 35-50 tonne of waste per day.
- Your concerns regarding compliance are alleviated with Ace Waste's cradle to grave solutions that manage multiple hazardous and problematic waste streams.
- Ace Waste is fully licensed by the Department of Environment & Science (DES), Victorian Environmental Protection Agency (EPA) & Department of Agriculture and Water Resources (DAWR) to carry out waste collection, transportation, processing and disposal services for the growing variety of waste streams.
- Members of the Waste Management Association of Australia (WMAA) and compliant with the relevant Code of Practice for the Management of Clinical and Related Wastes.
