

OCCUPATIONAL HEALTH & SAFETY POLICY

Ace Waste have an ongoing commitment to health & safety, through the stringent implementation of **Occupational Health & Safety Management System ISO45001:2018**. Applied in conjunction with Quality Management System ISO9001:2015 and Environmental Management System ISO14001:2015, Ace Waste are driven by continual improvement across all facets of the company, through the implementation and application of OH&S Objectives.

Employee focus: We are committed to the wellbeing of workers and strive to meet or exceed occupational health & safety expectations.

Leadership: Management are committed to creating and maintaining a safe work environment in which workers are fully engaged in achieving OH&S objectives.

Process approach: Ace Waste operates under strict legislative and regulatory guidelines. We understand that desired results are most efficiently achieved when identified hazards, potential risks and incidents are reported, managed and monitored.

Equipment management: Ace Waste recognises that our activities and processes require use of Personal Protective Equipment (PPE) and Safety Equipment, which is maintained in good working order.
