

# QUALITY POLICY

---

Ace Waste have an ongoing commitment to quality, through the stringent implementation of **Quality Management System ISO9001:2015**. Applied in conjunction with Environmental Management System ISO14001:2015 and Occupational Health & Safety Management System ISO45001:2018, Ace Waste are driven by continual improvement across all facets of the company, through the implementation and application of Quality Objectives.

**Customer focus:** We are committed to understanding current and future customer needs and strive to meet or exceed expectations.

**Leadership:** Management are committed to creating and maintaining an environment in which workers are fully engaged in achieving our quality objectives.

**Process approach:** Ace Waste operates under strict legislative and regulatory guidelines. We understand that desired results are most efficiently achieved when activities and related resources are maintained within a managed process.

**Relationship management:** Ace Waste recognises that our relationship with external providers is interdependent. A mutually beneficial relationship enhances the ability of both parties to create added value.
